

SETHIA SONS

In 1908, our great-grandfather Shri Sowbhagmul Umedmul Sethia set foot in Chennai, looking for new avenues to feed their entrepreneurial thirst. We have since come a long way, eschewing the principles set by our forefathers, and taken to further heights by S.O Bhawarlal Sowcar, to forge new businesses without compromising the values of hard work, honesty & humility.

With a humble start pursuing the traditional business of money lending, the Sethia family has embraced opportunities indulging in modern businesses - importing papers, manufacturing steel utensils, financing vehicle purchase, investing in equities, and selling computers, to launching apps and websites.

WHY CHOOSE SETHIA INFOTECH?

ABOUT US

At Sethia Infotech, we don't just sell IT products — we deliver complete tech experiences. Our agile mindset and entrepreneurial drive empower us to adapt quickly to your evolving business needs.

With a team of skilled consultants and specialists, we bring deep, cross-industry expertise to the table, solving real-world challenges with smart, reliable, and scalable solutions. From startups to enterprises, we partner closely with our clients to provide tailored personnel, innovative products, cutting-edge solutions, and end-to-end services.

We believe in more than just transactions — we build long-term partnerships based on trust, performance, and real value.
